

Wadi Rum Camel Camp                  Short tour

### **Extended Tour: 4-6 hours**

This tour is an extension to the [Short Tour](#) , but you will have a lot more time to enjoy each highlight. In addition, we will drive to three other places, which are located further into the desert and deserve more time.

**Lawrence House:** This is the place, where E.T. Lawrence was supposed to live during the time of the Arab revolt. It shows quite well, under which conditions Lawrence lived and experienced Wadi Rum.

**Umm Fruth Rock Bridge:** This bridge is a natural wonder and its view is simply breath-taking. There will be enough time for you to climb up and take beautiful pictures of the area.

**Small Arch Bridge:** This bridge is similar to Umm Fruth Rock Bridge, but a lot easier to climb. Located aside the big Wadi Rum valley, you can see for miles into the desert. You will feel, how small humans actually are compared to nature.

**Big Red Sand Dune:** There are various places in Wadi Rum, where the white and red sands meet. But this sand dune is special, because you can feel extremely fine sand, which is the result of erosion over thousands of years.

**Jebel Khaz'ali:** This narrow canyon contains numerous Nabataean rock carvings of people and animals. It is a must-see in Wadi Rum and part of all of our tours.

-----Prices for tour without sleeping-----
